A Field of Energy, 2015

Pastels on Cardboard
H 63 x 50 cm

This work marks a bold shift towards the abstract, expressing - in his own words - 'the transmission of energy and ideas through spacetime, and the multiplicities of energetic visuals using colour and form on a plane surface.' In spirituality, 'A Field of Energy' represents the aura or 气场 (qi chang) - often described as a coloured emanation from a body or object. Ee Shaun's continuous investigations into abstraction reveal his artistic experimentation with the logical and illogical, and finding that balance between both worlds.
