Screen Print on Paper
H 67.5 x 101.5 cm

My prints represent the unique characteristics of today's Singaporean multi-cultural and eclectic society: diverse but not divided, busy yet orderly, where the best of both Eastern and Western worlds coexist. Through my prints, I want to capture these aspects of Singapore in tangling overlaid images which represent diverse ethnicity, culture, and custom, as well as the dynamic and busy lifestyle, over-crowdedness, and the equatorial climate of Singapore.
