

Tan Gek Lin

b. 1969, Singapore

Material I, II, III

2015

Mixed Stoneware

Material I: H 39.5 x 20 x 12 cm (*left*)

Material II: H 41 x 22 x 10 cm (*middle*)

Material III: H 41.5 x 16 x 10 cm (*right*)

Another medium I find interesting is fibre, which can be spun into yarn and woven into fabric. These pieces were inspired by the many characteristics of fabric and the numerous ways it can be used and constructed to flatten or enhance a person's appearance however imperfect her body form is.
