I am often amused by the eclectic assortment of photo frames that sit in my display cabinets. Before digital enhancement was available, the analogue way of jazzing up a mediocre photograph was to present it in a fancy frame. Pose, crop and filter, there's not a single moment we put up to the world that isn't gift wrapped in some way. #giftwrapped #photography #art #fineart #drawing #painting #singaporeart #singaporeartist #henrylee #iamzix #tohaveandnottohold #mulangallery
